SHINEON

High Grade Tile Cleaner

INTRODUCTION

ShineOn is a fast-reacting, acid-based tile cleaner that is used for cleaning stains, cement film, and concrete deposits on wash basins, bathtub tiles, etc. It is a biodegradable product. It also removes white, yellowish spots and layers along with water stains over tiles, cement stains, grime, lubricants, paint stains, grease, moss, and wax from concrete and ceramic tiles.

TEST	VALUE
Chemical Composition	Acid, cleaning agent and additives
Viscosity, B4 Cup	11-14 seconds
Specific Gravity, kg/litre @27 ± 2°C	1.03 ± 0.02
Soaking Time	5 minutes
pH	Acidic

METHOD OF USE

Shake ShineOn well before use. For routine tile cleaning, dilute two cups of ShineOn with half a bucket of water and use a diluted solution for cleaning the tiles and floors. Allow it to soak for 10–20 minutes before rinsing. Repeat if necessary for heavy staining. For mild blemish spots or layers, mix ShineOn with water in a 1:1 mixing ratio. Rub the substrate until spots or stains are not removed. Allow to soak for 10–20 minutes, and then rinse with clean water. It can be applied directly to a dry, stained surface, over a corroded area, or with a sponge, brush, or roller.

Application Areas

ShineOn is used for cleaning:

- White, yellowish spots or layers along with water stains over tiles
- All unglazed ceramic tile
- Cement film, concrete, and grout on tiles
- Glazed tiles
- Glazed ceramic tile
- Porcelain Tile
- Glass Tile
- Vitrified Tile
- Glass mosaic tile
- Toilets, sinks, and pipes

Precautions

- Before large-area application, apply in a small corner area to check the discoloration of the applied surface. If there are no colour changes, go for the usual application.
- Do not use decorative metal surfaces.
- Prolonged use may cause the discoloration.
- Do not use natural stone in concentrated form.
- Avoid direct contact with the skin. This may cause a burn injury. If contact occurs, immediately wash with tap water.
- Do not mix any other product or material except water.

Features and Advantages

- Easy application and very fast with high efficiency
- Effective on vertical surfaces
- Removes salt and mineral scale.
- Removes exhaust and rust stains.
- Non-flammable and non-carcinogenic
- Removes surface yellowing.
- Deters future soiling and buildup.
- Ready to Use: mix with water and use.
- Protects the colour and shine of tile.
- The water-based liquid requires no special equipment or supplies to use.

Safety

- Wear the appropriate PPE when handling it.
- Never eat, drink, smoke, or apply cosmetics while working.
- Wash work clothes separately from street clothes, or wear disposable clothing. Wash your body thoroughly after using chemicals and before eating, drinking, smoking, or using the washroom.

Coverage

About 100–150 g/m² (recommended consumption may vary depending upon the substrate or application conditions)

Shelf Life & Storage

18 months from the date of manufacturing when stored in a dry and cool place above +5°C to +40°C in the original unopened packaging.

Packing

0.5kg/1kg/5kg
